

FieldSmart Fiber Distribution System (FDS)

Accessories: Slack Management Panel

Application

This panel mounts in either 19" or 23" mounting frames and contains bend radius spools for incremental and horizontal slack take up. When closed, the drawer protects fiber from accidental damage.

Description

This panel stores excess jumper cordage in one rack unit (1.75 ") drawer based panel. Accommodates varying lengths of horizontal slack take up for up to 48 3 mm jumpers.

Features & Benefits

- 19" or 23" mounting
- Sliding drawer system protects fiber from damage
- Four radius spools allow for maximum flexibility when taking up slack

Dimensions

1.75 Inches high/1 Rack Unit
19" or 23" width depending on mounting options selected

Slack Management Panel

Ordering Guide

FMA-G11	Slack Management panel for 19" frame
FMA-G21	Slack Management panel for 23" frame

Accessories: Frame Clamp Kit and Splice Deck Clamp Kit

Application

For on-frame patch & splice application, the desire to clamp onto the frame rather than a FieldSmart FDS Panel may be desired to address proper cable sweep from the frame into the panel. The frame clamp can also be used to manage incoming cable at an additional location on the frame when a more robust and rigid capture is required due to the O.D. size of the cable and the number of incoming cables.

Description

Frame Clamp Kit comes with bracket for mounting onto the frame, clamp shells and mounting hardware. Mounts to 19" or 23" standing frames or cabinets.

Features & Benefits

- Can be used on any frame
- Comes with multiple size clamp
- Holds cable diameters up to 1" in diameter

Frame Clamp Kit - Part Number 008140

Splice Deck Clamp Kit - Part Number 008139
