

FieldSmart Fiber Delivery Point (FDP)

Splice Only Pedestal Inserts

Application

The FieldSmart FDP Splice Only Pedestal Inserts provides splice or interconnect connectivity at the access point for the last mile drop.

Description

The FieldSmart FDP Splice Only Pedestal Inserts incorporates field-tested designs to provide a solution that is easily installed and modified from splice only drops to Clearview Multiplied solutions. The pedestal products can be configured to support any access point configuration for multi-fiber, ring cut, and drop cable solutions. Clearfield designed back plane bulkheads to integrate into industry standard pedestals.

Features & Benefits

Integrity

- RUS listed
- GR-13 core
- RUS PE-91

Protection

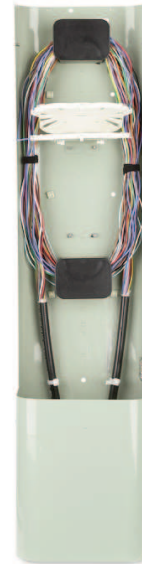

- Open architecture
- Flood-proof
- Strength, rigidity and security all in a high-performance thermo-plastic material designed to Telcordia GR-13 Core and RUS PE-91 specifications
